DIGITAL SERVICE PROGRAM**

KEEPING COMMUNITIES SAFE ONLINE

As schools around the world grapple with the new way of learning we're here to help.

Over the coming weeks and months we are committed to supporting schools and keeping kids safe through equipping young people with the skills they need to manage a new way of learning and extra time online.

Digital Services 2020

As communities around the globe are dealing with the 'new normal' we want to share how we are here to help and will continue to support our school communities through our digital program.

Now, more than ever before, young people have greater access to technology for learning, connecting and playing. We will continue our commitment to support students, parents and teachers through this period of isolation and home learning. Our mission is to keep Australian kids safe online, so with this in mind, we have developed a range of support options and resources to ensure children and families in your school community are equipped with the skills and knowledge needed to stay safe.

The People behind the Cyber Safety Project

Trent Ray has over 13 years experience working as a primary/secondary school teacher and leader in Victorian Schools. More recently, Trent's roles include Co-Founder of the Cyber Safety Project, Director of Collective Education Australia and working in partnership with the Education team at Microsoft Australia.

Sam Macaulay is primary school teacher whose advocacy for student leadership led him towards becoming a Co-Founder of the Cyber Safety Project. In 2017 Sam was the deserving recipient of the Deakin Community Award for his outstanding contributions to his local community (Deakin Electorate in Melbourne).

STUDENT WORKSHOPS

LIVE STREAM WITH TRENT & SAM

Join Trent & Sam online as they stream LIVE for 30 minutes in an entertaining and informative session designed to support, empower and equip students with the knowledge and skills to maintain their safety when connecting online. Students will also discover strategies to manage the extra time they will spend on technology at home.

The experience includes:

- 2 x 30 minute live streamed sessions with interactive engagement activities
- 1 x teacher lesson plan with question prompts and worksheet (facilitated by classroom teachers between live sessions)

CURRICULUM LESSONS & ACTIVITIES

CYBER SAFETY PROJECT

The **NEW Cyber Safety Project Curriculum Framework** is now available with 16 easy to implement lessons for every year level (Foundation to Year 6). Schools can now purchase a 12 month license giving digital access to the curriculum for just \$1200.00+GST.

We've taken the hard work out of creating engaging learning activities that foster the character qualities of Responsibility, Integrity, Strength and Empathy. All activities, games and conversation starters are mapped to the Australian and State curriculum outcomes including Digital Technologies, Civics & Citizenship, Personal & Social, Ethical and Critical Thinking General Capabilities.

EASY TO IMPLEMENT LESSONS

ENGAGING LEARNING ACTIVITIES

LESSONS & ACTIVITIES

- ✓ Foundation – Year 6
- ✓ 16 x Lesson plans and activities per year level
- ✓ Aligned to the Australian Curriculum
- ✓ Emotions Cards and Conversation Starters

PARENT WORKSHOPS

PARENT WEBINARS

LIVE OR ON-DEMAND

30 minutes

WEBINAR TOPIC 1: PLAN, PREVENT, PROTECT

The Cyber Safety Project Team will share insights and practical resources to help support and manage online child safety in the home. Introducing parents to a simple methodology **PLANNING** for the use of technology at home, **PREVENTING** unsafe encounters and **PROTECTING** children who connect, learn and play online.

WEBINAR TOPIC 2: KEEPING KIDS SAFE ON SOCIAL MEDIA

Whilst it is impossible to know the ins and outs of every single social media platform, there are commonalities across social platforms today. Knowledge is power so we will discuss trending platforms such as Instagram, Snapchat, TikTok and Houseparty and provide practical tips that can be immediately implemented to keep kids safe.

WEBINAR TOPIC 3: KEEPING KIDS SAFE WHO GAME

Gaming today is social. It's where young people go to play, connect and communicate with their friends. This webinar will uncover the appeal of gaming, expose the ways game developers encourage young people to regularly play and provide practical tips for helping to manage screen time and the development of self-regulation skills in young gamers.
