Secondary Schools Partnership Program
cybersafetyproject.com.au
It takes a village to raise a child, so here at The Cyber Safety Project we believe in a whole community approach to supporting young people to successfully live, play, learn and work online.

Our mission is to empower every young Australian to self manage their digital safety and wellbeing through proactive education.

CREATING SAFE COMMUNITIES

TRENT RAY | CO-FOUNDER & DIGITAL PEDAGOGIES SPECIALIST
Trent has over 13 years experience working as a primary & secondary school teacher & leader in Victorian Schools. More recently Trent’s roles include Co-Founder of the Cyber Safety Project, Director of Collective Education Australia and working in partnership with the Education team at Microsoft Australia.

SAM MACAULAY | CO-FOUNDER & SCHOOL PROGRAMS MANAGER
Sam is a primary school teacher whose advocacy for student leadership led him towards becoming a Co-Founder of the Cyber Safety Project. In 2017, Sam was the deserving recipient of the Deakin Community Award for his outstanding contributions to his local community (Deakin Electorate in Melbourne).

JACLYN TASKER | CYBER SAFETY EDUCATOR & LEAD CURRICULUM DESIGNER
Jaclyn is a primary school educator and ICT leader who has overseen the implementation of many successful teaching and learning initiatives. Combining her Masters Degree in Education and extensive experience teaching digital literacies in the early years, Jaclyn’s wisdom is embedded in the Cyber Safety Project Curriculum resources.

KATE PRICE | CYBER SAFETY EDUCATOR
Kate is an educator and mother bringing a unique perspective to the Cyber Safety Project dynamic. For more than 10 years, Kate has devoted her time to promoting health and wellbeing as an ambassador for the Cancer Council Australia. Her passion for supporting the community extends through helping all parents, and their children safely navigate the complexities of the every changing digital landscape.

OUR COMMITMENT

EMPOWER YOUNG PEOPLE
To be safe and responsible digital citizens when using connect technologies.

EQUIP EDUCATORS
With the tools and resources to develop proactive strategies through working with students, parents and the wider community.

ENGAGE PARENTS
And the wider community to assist in fostering positive and safe digital environments in the home.
Launched in 2017, the Cyber Safety Project has already reached thousands of school students, educators and parents through a proactive whole community approach designed to empower young digital users to develop safe practices when using technology.

---

**FOR SCHOOLS**

**SCHOOL PARTNERSHIP PROGRAM**

The Cyber Safety Team deliver:

- **Cyber safety learning** tailored to your school’s needs
  - **STUDENT PROGRAMS**
  - **PROFESSIONAL LEARNING**
  - **PARENT NIGHTS AND WEBINARS**

---

**KEY VALUES TO CREATE A STRONG FOUNDATION**

- **Digital safety and digital wellbeing**
  - **RESPONSIBILITY**
  - **INTEGRITY**
  - **STRENGTH**
  - **EMPATHY**
FOR SCHOOLS

DIGITAL HABITS SURVEY

A one size fits all approach just doesn’t cut it. Before visiting your school we like to conduct an in-depth analysis of how young people in your community access and use technology. This intel informs our sessions and allows us to engage in discussions aligned to your students’ needs.

Chat to the Cyber Safety Project team to learn more about our educator skills check and parent surveys with reports.

CONDUCTED VIA ONLINE FORM AND LIVE DIGITAL FORUM
Cyber Safety sessions designed to empower young people to take control of their own digital safety and wellbeing through engaging and interactive workshops and presentations.

From Years 7 TO 12, the Cyber Safety Project offers a secondary school program tailored to meet your students’ needs relevant to their level of digital use and understanding.

Empowering young people to take control of living digital through the #YouChoose campaign, students will discover the positive effects of respectful digital interactions and creating a community of supportive digital citizens.

Students will reflect on the perspectives of others when engaging in online communities and discover proactive measures they can take to protect themselves and others when things go wrong online.

Finishing the session with a digital pledge, students will make a commitment to deliver on their promise of creating inclusive and safe online experiences for everyone.

**LEVELS**

- 7
- 8

**DURATION**

60-70 MINS

**CAPACITY**

up to 120 students per session
This project starts with a digital habits survey where students will evaluate their own school data and discover cyber safety challenges in their community.

Using real and authentic data, students become problem solvers by inquiring into the cause and impacts of their chosen cyber safety themes.

Students will be guided through an inquiry process to build upon their prior knowledge, make new connections with complex digital issues, design and test out ideas, take action and reflect on the process of learning.

All scaffolds and workbooks provided in either OneNote, PowerPoint or PDF format.
Our middle to senior school sessions focus is underpinned by four key values which are the foundations for thriving in both the offline and online worlds:

- RESPONSIBILITY
- INTEGRITY
- STRENGTH
- EMPATHY

FOR STUDENTS - YEAR 9 AND 10

WHAT’S YOUR GAME PLAN?

Whilst they think they’ve “heard it all before” we reset, reframe and refocus the thinking of these young impressionable community members. The aim is for students to understand how their current and future digital habits will impact their digital reputation as they transition into adulthood.

Students walk away with strategies to maintain respectful relationships, positive digital reputations and develop their own personalised social media game plan.

LEVELS
DURATION
CAPACITY
9 | 10
60-70 MINS
up to 120 students per session
Enabling educators, parents, guardians and the wider community to play an important part in ensuring young people can participate safely and responsibly in their digital world.

**FOR EDUCATORS AND FAMILIES**

**EDUCATOR & PARENT SUPPORT**

The Cyber Safety Project Team will share insights and practical resources to help support and manage online child safety in the home. Introducing parents to a simple methodology **PLANNING** for the use of technology at home, **PREVENTING** unsafe encounters and **PROTECTING** children who connect, learn and play online.

Whilst it is impossible to know the ins and outs of every single social media platform, there are commonalities across social platforms today. Knowledge is power so we will discuss trending platforms such as Instagram, Snapchat, TikTok and Houseparty and provide practical tips that can be immediately implemented to keep kids safe.

Gaming today is social. It's where young people go to play, connect and communicate with their friends. This webinar will uncover the appeal of gaming, expose the ways game developers encourage young people to regularly play and provide practical tips for helping to manage screen time and the development of self-regulation skills in young gamers.

**EDUCATOR & PARENT WEBINARS**

**TOPIC 1 PLAN, PREVENT, PROTECT**

**TOPIC 2 KEEPING KIDS SAFE ON SOCIAL MEDIA**

**TOPIC 3 KEEPING KIDS SAFE WHO GAME**

30 MINS EACH DELIVERED VIA A LIVE OR ON-DEMAND WEBINAR SERIES
