

Developing digitally literate and  
cyber safe communities!

“Over a third of children aged between 8 – 12 are active on Social Media.”

Young & Social Media – eSafety Commission

## Our Focus

The Cyber Safety Project’s mission is to provide a whole community approach focused on developing future skills, lifelong habits and self-regulation when innovating and using digital technologies for work, life and play. Our mission is to support teachers with learning design aimed at equipping children with digital literacies and proactive strategies to participate safely and responsibly in a digitally-engaged society.

## OUR MISSION

**Empower children** to be safe and responsible digital citizens when using connect technologies.

**Equip teachers** with the tools and resources to develop proactive strategies through working with students, parents and the wider community.

**Engage parents** and assist with fostering positive and safe environments for digitally engaged children in the home.

### Outcomes Students:

- ✓ Children have the skills to interact safely and responsibly online.
- ✓ Children build digital resilience and know how to seek support if they feel unsafe.
- ✓ Children are digitally responsible and make ethical decisions when communicating, curating and collaborating online.

### Outcomes Teachers:

- ✓ Teachers know relevant cyber/digital citizenship elements of the digital technologies curriculum, ethical and social responsibilities.
- ✓ Teachers are aware of and understand current digital literacies and trends.
- ✓ Teachers are able to design learning to achieve the cyber/digital technologies outcomes for students.
